PANIC ON SHIPBOARD

Further Accounts of Foundering of the San Gabriel.

TERRIBLE SCENES ENACTED

Life Belts Proved Rotten and Worthless, It is Said, and Few of the Women and Children on Ill-Fated Boat Escaped—Loss of Life Uncertain.

Manila, July 18.—The number of lives lost through the foundering of the pleasure launch San Gabriel while on its way from Manila to Corregidor, is yet uncertain.

Sixty-one passengers and members of the crew were rescued.

It is generally estimated that the number of passengers and crew numbered ninety. Thirty-five of those who were rescued clung to a life raft and were buffeted about by the heavy seas for four hours, when the German steamer Suveric rescued them. Twenty-two more reached Corregidor in a lifeboat.

The passengers on the San Gabriel were thrown into a panic when the heavy seas tore out some of the San Gabriel's planking and she began to roll, and terrible scenes were enacted. The vessel was greatly overcrowded and the life belts proved to be rotten and worthless.

Few of the women and children on board the ill-fated launch escaped. As far as known now, there were no Americans among those drowned.

SOLD INTO SLAVERY.

Remnant of Many Kidnaped Islanders Free and Homeward Bound.

San Francisco, Cal., July 18.—Nine survivors of several hundred South Sea Islanders kidnaped eighteen years ago from their native land and sold into slavery among the coffee plantations of Guatemala, arrived here Thursday on the steamer City of Pasa.

They are free and homeward bound. In addition are traveling as tourists with the British government pay expenses.

The natives were kidnaped by Captain Blackburn, who visited the island steamer the Monzeratt, and ending them aboard, sailed away. They were supposed to be contract laborers bound to their Guatemalan employers for three years.

Ignorant of the language and in a strange land, they slaved until their plight was made known to the British government. This, however, was not until eighteen years had passed and most of the natives had died.

Captain Blackburn was lost at sea December, 1894, when the Monzeratt went down with all hands.

MERCHANTS PROTEST

Against the Recent Increase in the Freight Rates.

Montgomery, Ala., July 18.—Merchants of the section are protesting against the recent increase in freight rates. A Columbus, Ga., special train.

Charles R. Woodruff, railroad rate commissioner of the Columbus board of trade, reported to the board that the increase in freight rates from the west on wheat, meat, hay, corn, oats, etc., had cost this city from \$70,000 to \$100,000 annually. Other cities in the southeast are affected proportionately. He roughly estimated that the increase would cost the people of the Montgomery states from \$30,000,000 to \$50,000,000 per year.

Shot Bullet Through Brain.

Phoenix, Pa., July 18.—During the temporary absence of his wife Friday morning, Charles W. Hamilton, assistant attorney of Allegheny county, residing at Elizabeth, Pa., fired a revolver and shot himself through the head. Death resulted almost at once. His health is supposed to have been the cause of the

ALACHUA ITEMS:

Dr. Bishop's Automobile—Col. Smith Back from Denver.

(Alachua News.)

Well, the "benzine wagon," in the shape of an auto-a-mule, made his appearance on our streets last week, Dr. J. C. Bishop being the fortunate (?) purchaser of the tangle fangle contraption. The machine began its eventual career at the Seaboard depot, where it was unloaded and, by skillful coaxing, induced to proceed to the blacksmith shop, where it was laid up for repairs. However, after some touching up and replacing of defective parts, the machine carried our Doctor and his "chauffeur" (American-fireman) at a merry clip through the surrounding country, and everything would have been to the good if it were not that the "bubble" has a mania to look for and find every boggy place on the road and there remain helpless until a good one-eyed mule comes along and pulls it out. We will devote a special column every week to the feats performed by this new discovery of the peerless Dr. John. We know that Dr. Jim will soon follow.

Col. F. Y. Smith has returned from Denver, where he hid himself with the Florida delegation to nominate William Jennings Bryan for President of the United States. He reports a very fine time, and no doubt has had it. The young lawyer deserves great credit for the way he selects his trips and pastimes. There is always a note of practical instruction and special satisfaction in every trip he undertakes.

HIGH SPRINGS NOTES.

High Springs, July 18.—Mrs. G. P. Webb of Dunnellon is visiting her daughter, Mrs. H. J. Peterman.

Miss Mabel Rogers has returned from a most enjoyable visit to South Florida.

Mrs. Clara Pedrick and children of Orlando are visiting Mrs. Cora Pedrick.

Mr. and Mrs. T. P. Andrews have returned from their bridal trip to Georgia.

Born, to Mr. and Mrs. J. E. Barnes, on July 5, a son.

Mrs. Mays and daughter, Mrs. J. H. O'Bannon, are visiting friends in Savannah.

Mrs. J. C. Nettles of Savannah is visiting her mother, Mrs. Sallie Easterlin.

Mrs. J. C. Barrs and Miss Emma Barrs have returned from a delightful outing at Pablo Beach. They were accompanied home by Miss Annie Barrs, a successful teacher in the Central Grammar School of Jacksonville, and Miss Abbie Barrs, who has been attending school in Nashville, Tenn.

A revival meeting is being held in the Baptist church, conducted by Rev. T. W. Gay, an evangelist appointed by the State Board of Missions. Great interest is being manifested in the services and many additions have already been made to the church. A large Baraca class has been organized and possibly a Philathea class will be formed before the meeting closes.

J. C. Cowles has gone to Georgia to spend the summer.

The installation ceremonies and banquet which was to have been held by Esther Rebekah Lodge on last Wednesday, has been postponed until the close of the Baptist revival.

Robert, one of the twin boys of Rev. and Mrs. J. L. Yeats, had the misfortune to be most painfully burned on last Sunday by overturning a cup of hot grease on himself. Drs. Tanner and Blackshear attended him and greatly relieved his intense suffering.

Girl's Assailant Captured.

Roanoke, Va., July 18.—Will Finney, a negro with Indian blood in his veins, who on Monday, beat little Mary Jamison, daughter of John Jamison, a Franklin county farmer, almost to death in an effort to make her submit to a criminal assault, was captured 17 miles from the scene of the crime, and taken to Rocky Mount jail.

INSURGENT REPULSE

The Honduran Rebels Defeated in Southern Battles.

THEY CAPTURED ONE TOWN

Salvador President Issues Statement that He is Not Backing Honduras Rebellion, but Will Remain Neutral and Guard Frontier.

Tegucigalpa, Spanish Honduras, Thursday, July 16.—The Honduran insurgents have captured the town of Porenr and have attacked Celba, another Atlantic port 69 miles to the westward of Trujillo. At Celba they were repulsed. They also have been beaten in the south and they are now feeling back to Salvador.

San Salvador, Republic of Salvador, July 8.—An official statement which has been issued regarding the revolution in Honduras, sets forth that on June 10 the Salvadorean government informed President Davila, of Honduras, that preparations were being made for an invasion of that republic in Salvador in favor of ex-President Manuel Bonilla. Salvador advised that the frontier be guarded closely. On June 22, General Carcame was arrested while proceeding to the frontier. A proclamation announcing himself as leader of the revolutionary forces and urging the people to rise was found in his possession. General Carcame was imprisoned and is still being held here.

Salvador then issued orders to the military governors to imprison all Hondurans found proceeding in the direction of the frontier. A few days later details were furnished to Honduras regarding the reported probable secession of government supporters and officials at various points in Honduras as well as information on the plan of attack, which was to take place on July 5.

Honduras soon after this reported that the frontier town of Gracias had been captured by the insurgents under Danley Lopez, and after that the town of Cholutec. Lopez proclaimed that he had the support of Salvador, but President Davila has been assured from here that this is false.

CATROW WILL NOT RUN.

Because He Accidentally Killed Man, Candidate Withdraws from Race.

Dayton, O., July 18.—Colonel H. G. Catrow, republican candidate for congress from the third district, has announced his withdrawal from the race. Colonel Catrow is prompted to take this step because of his having struck Eugene Sullivan, a laborer, on the street, instantly killing him with his automobile.

The nomination was secured as the result of a bitter contest, which was carried to the Chicago convention.

The congressional committee will be called together in the next few days to choose a candidate for Colonel Catrow's place.

FATAL FAMILY TROUBLE.

Because Wife Refused to Live With Him, Man Suicided.

Birmingham, Ala., July 18.—Hugh Dolan, a steel worker at Ensley, is dead as the result of a pistol shot wound inflicted by himself Thursday night after talking several minutes with his wife in Wylam, near Ensley, trying to induce her to return to his home.

The two separated a year and a half ago. Dolan told his wife that he intended killing himself if she would not return to him and she told him that he had better meet his Maker. Immediately he drew out a revolver and sent a bullet into his chest.

Boy Accidentally Kills Brother.

Birmingham, Ala., July 18.—Willie Owsen, aged 16 years, living at Gleebe, in the southern part of the county, is dead as a result of an accidental shot from a gun in the hands of a seven-year-old brother. The two boys had just returned from a rabbit hunt and were in the house playing with the gun when it was discharged and Willie was shot and instantly killed.

SEA ISLAND COTTON.

Savannah Market Quiet, With Only Small Sales.

Savannah, Ga., July 18.—The market was quieter during the past week, and only small sales were reported, the sales being smaller than the week's receipts. Quotations remain unchanged from the week before. At the moment there seems little or no demand, but at the same time the offerings are quite light.

Crop accounts show little change. Where it has been practicable to keep the fields clean, the crop looks promising, although remaining backward. There has been too much rain over most of the Sea Island territory, but as yet no serious complaints of damage are received.

APPROPRIATIONS BY CONGRESS

These of Last Session Show Large Increase Over First.

Washington, July 18.—Official figures have been prepared by Thomas P. Cleaves and James C. Courts, chief clerks respectively of the committees on appropriations of the senate and house of representatives, showing that the total appropriations made at the last session of congress were \$1,608,397,543.56. Of this amount \$95,382,247 was appropriated for the army, \$122,663,885 for the navy, \$163,063,000 for pensions, \$222,970,892 for the postoffice and \$111,958,088 for sundry civil expenses.

A comparison of the total appropriations of the last session of the fifty-ninth congress with those of the first session of the sixtieth congress shows an increase of \$87,699,399. Increases are shown in all the general appropriation acts, except those for the District of Columbia, Indiana and military academy, the reductions in these three aggregating \$439,709.

Permanent Arbitration Board.

New Orleans, La., July 18.—An important step toward arbitration of New Orleans' frequent labor difficulties was taken by Governor Sanders, when he appointed four well-known men of the city as a permanent arbitration board. These four members will choose a fifth, thereby completing the board.

Fire at Wrightsville Beach.

Wilmington, N. C., July 18.—A fire at Wrightsville Beach burned several buildings at the extreme south end of the beach, including the Oceanview hotel, the smallest of the three hotels on the beach. The fire is believed to have started in a restaurant adjoining the hotel. No lives were lost.

"Uncle Remus" Mourned by Teachers.

Knoxville, Tenn., July 18.—Georgia school teachers attending the Summer School of the South here held an "Uncle Remus" memorial when addresses were made. "Uncle Remus" stories were told and resolutions were adopted in memory of the late Joel Chandler Harris. More than 150 Georgia teachers are here.

Planing Mill Burned.

Philadelphia, Pa., July 18.—Fire early Friday destroyed the planing mill and lumber of the President Lumber company, in the southeastern section of the city. The flames started in the planing mill. The loss is estimated at \$125,000.

CHAFIN IS NOMINATED

Illinois man Heads Ticket of the Prohibitionists.

OHIOAN HIS RUNNING MATE

Convention Before Its Adjournment Adopted a Platform Which is Said To Be the Shortest on Record—Mr. Chafin's Total Vote 636.

Columbus, O., July 18.—For president, Eugene W. Chafin, of Chicago; for vice president, Aaron S. Watkins, of Ada, Ohio.

This ticket was nominated by the prohibitionists' national convention, and both nominations were made unanimous. The full indorsement of the vote was not, however, given to Mr. Chafin, until after three ballots had been taken.

On the first two ballots Mr. Chafin did not show a great amount of strength, receiving but 195 out of 1,083 votes on the first and 376 out of 1,087 on the second ballot. His nomination was assured, however, when the roll call began for the third ballot. His own state, which had voted largely for Daniel R. Sheen, of Peoria, and the New York delegation, followed by those of Indiana and Wisconsin, came over to Mr. Chafin, and on the third ballot he received a total of 636 votes.

Both the president and vice presidential nominees are candidates for governor in their respective states on the prohibition tickets.

Eugene W. Chafin, who leads the prohibition party this year, is an attorney. He is a native of Waukesha county, Wisconsin, and for several years practiced law there.

A platform was adopted which is probably the shortest on record, containing only about 350 words.

WANT COPPER PLANT CLOSED.

Georgia Legislature Will Be Asked to Take Some Action.

Blue Ridge, Ga., July 18.—Petitions are in circulation in Fannin, Union, Gilmer and Murray counties asking the legislature to pass a resolution authorizing Attorney General Hart to take a decree at the October term of the United States court shutting down the large copper smelting industries at Ducktown, Tenn., because of alleged damage done crops, land and timber in Georgia by the sulphur fumes.

The petitions, it is expected, will be presented to the legislature. In the supreme court one year ago it was decided to grant the copper companies time to do away with the alleged nuisance of sulphur fumes, and thousands have been spent in an effort to convert the sulphur into sulphuric acid. It has been believed for some time that the new process was a success.

Alabama High Schools Located.

Montgomery, Ala., July 18.—The following high schools have been located: Cullman county, at Cullman, bid \$17,500; Clay county, at Ashland, bid \$28,000; Dallas county, at Plantersville, bid \$10,000; Chambers county, at Lafayette, bid \$40,000. The bids include the value of the buildings, which will be given to the state. In each case the agreement is to supplement the high-school fund, put lights and water in the buildings, and keep the buildings in repair.

River of Georgia Peach.

New York, July 18.—Reports from Delaware and Maryland indicate the peach crop in those states this season would be bigger than in many years. The railroads have estimated the output of Delaware alone will be 1,779,620 bushels this year, and the traffic managers of the railroads leading through the peach growing section of the state are making arrangements to move the big crop as soon as it is ready to harvest.

Costly Livery Stable Fire.

Nashville, Tenn., July 18.—In a livery stable fire at Jackson, Tenn., on Friday morning twenty-two valuable horses were destroyed. The stable was burned to the ground and a warehouse and residence badly damaged.

THE OCILLA BUNCH EASILY DEFEATED

The Fast Oak Halls Were Too Much For the Tired Georgia Boys.

BEAUTIFUL WORK BY OAK HALLS

The Errorless Game Played by Oak Halls, While the Visitors Were Chalked Up With Thirty-Will Be Looking After Us Today.

From Friday's Daily Sun: Only a small crowd of local fans saved the threatening weather to attend the game at the ball park yesterday afternoon between the Ocilla bunch and the fast bunch picked up by Manager Davis which is admirably defending the title of the famous old Oak Halls.

The Georgia crowd are a set of gentlemen and the long jump that they were compelled to take in order to reach here in time had much to do with their playing yesterday, but today's game promises to be one of interest throughout, and the public can count with the assurance that they will see a good game today—one that will be full of ginger from start to finish.

The management desires to announce that the game will be called at 4 o'clock, rain or shine, and you all want to get the habit of attending and being on time. No aggregation hold up as we have started with the local fans taking interest, and behooves us all to help them by our presence and lend them encouragement in every way possible.

The game was an errorless one yesterday for the Oak Halls, while the visitors made three costly blunders.

The Summary.

FRIDAY'S CONTEST GAME OF ERRORS

Boys Played in Rain From Beginning to End of Contest.

TEN INNINGS WERE PLAYED

Remarkably Good Game Considering Disadvantages Under Which Teams Labored—It Was Anybody's Game Till Tenth—8 to 6 Favor Oak Halls.

From Saturday's Daily Sun:

It was a good crowd that defied the weather man yesterday and "hied" themselves off to the ball park to witness the contest between the Oak Halls and Ocilla, who did just as they were advertised—played in the rain.

That the score did not reach 'way up in the 'teens is a mystery to many, as it would seem well nigh impossible to keep it down under such circumstances. The many errors made were not near what we were looking for, but they were enough.

Watson was placed in the box in the sixth inning to relieve Sheats, and it did not take the Ocilla bunch long to get after him. With the errors made by the locals the Georgians got in four ugly runs, tying the score, which necessitated a ten-inning game.

The game was called at 4 o'clock sharp. Following is the innings in which the scoring was done:

SECOND INNING—Taylor got his base, Kennard sacrificed, Denton grounded to third and was safe on first. Taylor came home on wild throw. Denton got it in the neck on an attempt to swipe third, and Clark was out, pitcher to first. One run.

Snow fanned; Henderson grounded to first; Mitchell hit to short and was safe on first; Howell fanned. No runs.

THIRD INNING—Watson struck out, Marten swatted a grounder through pitcher, and swiped second; Graham walked; Sheats lined one to center, and Graham was nabbed at third; Hutch. ballooned out to the fat man in right. No runs.

Sebley and Godwin fanned; Simmons singled and went from first to third on Anthony's hit. Anthony stole second; he scampered home a moment later with Simmons ahead of him. Bowen lined one down to Graham and was tossed out at first. Two runs.

FIFTH INNING—Clark grounded to pitcher, Watson laid one down in front of the plate and was nailed at first. Marten singled to right and stole second when Graham sent a long two-bagger to center, scoring Marten. Sheats grounded to third, who muffed it and Graham gets the rubber on wild throw. Hutchinson pops out to first. Two runs.

Godwin goes out, short to first; Simmons popped out to left; Anthony sent one to Graham and was out at first. No runs.

SEVENTH INNING—Clark walked on four wide ones; Watson laced the pill to left for a single; Marten popped out to second; Graham hit the ball on the nose for a two-bagger but was called out for cutting first base, while Clark and Denton scored on the hit; Sheats sent a screamer to left; Hutch. lines a hot one to right and Sheats was thrown out at third. Two runs.

Henderson walked, Mitchell fanned, Howell grounded to third and Sebley out on an infield clout.

EIGHTH INNING—Taylor singled to center, Kennard got his base. Denton singled to right, Clark fanned and Watson skied out; Marten grounded to first and was out. One run. Errors and good stick work on the part of Ocilla bunch brought in Godwin, Simmons, Snow and Henderson—four runs—and the score tied.

TENTH INNING—Taylor flew out to center garden, Kennard swatted a Texas Leaguer to left, Denton got a pass. Watson proved the hero of the day by swatting the ball for two bags, sending Denton and Kennard over the rubber; Marten sent a high one to left retiring the side. Two runs.

Anthony, Baby Bliss, raps the ball for a single; Bowen flew out to center. Snow kept cool by fanning and

Taft may not be able to conduct a front-porch campaign, as does Mr. Bryan, but he has a much larger "front" for his audience to gaze upon.

The Atlanta Constitution remarks that "if Caleb Powers takes the platform he may cut out Kentucky, for in that State he would be a tempting target on a platform elevation."

The Atlanta Constitution accuses Jacksonville of shipping "bottled smiles" into that State. Well, didn't an Atlanta man organize a "Smile Club" just after the passage of the prohibition law?

"Kissing-bug" Hobson, as he is dubbed by The Pensacola Journal, made an ass of himself in the Denver convention. It is strange that Alabama Democrats sent such a freak to Denver as a delegate.

R. J. Holly, who recently severed his connection with The Orlando Reporter-Star, will establish a new paper in Sanford to be known as The Sanford Herald. He has ordered a new outfit for his enterprise.

A member of the Georgia Legislature has introduced a bill to change the time of the meeting of that body to the winter months. We don't blame him, for even in the winter season the Georgia Legislature would be "red-hot and still a-heating."

Edison's \$1,000 concrete house will cost not less than \$2,462, declares Popular Mechanics in an illustrated article in the August number. Experts have figured up the cost on the lowest basis practicable and found it impossible to crowd the expense into the \$1,000 limit.

The Railroad Commission should see to it that the railroads entering Gainesville provide proper facilities in their depots for the accommodation of the traveling public. Gainesville has a splendid sewerage system, yet not one of the railroads entering this city provides a water closet in their depot. If the railroad companies will not provide these accommodations they should be compelled to do so.

The Pensacola Journal says Thomas W. Lawson of Boston has sent a long congratulatory telegram to Mr. Bryan pledging his support and any reasonable campaign contribution. He is the same Lawson who is reported to have said before the nomination that he would supply one million dollars toward the Democratic campaign fund provided that Mr. Bryan would decline and give some other Democrat a chance who could be elected.

The latest impostor is a brother of the late Prophet Dowie of Chicago. He was born in Scotland, and announces himself as Moses II. He says of himself: "I am the greatest healer the world has ever known. All my brother did in Chicago he learned from me. I have a divine commission to carry out the teaching of the seven books of Moses which are not in the Bible. I am the reincarnation of Moses. Where I have healed the multitude I am known as Moses II."

TAFT AND BRYAN.

That the financial "interests" are by no means certain of Bryan's defeat at the coming election is shown by the expressions of the leading financial papers of the country. Though they all desire Taft's election, some of them candidly acknowledge that Bryan has a good chance to win.

The Financial World, published in New York, and which is one of the best papers of its class in the world, comments upon the two candidates for President and their chances of election as follows:

"Now that the nominations of the Presidential candidates of the two great parties are over, the country will soon begin to weigh the possibilities of each of them and watch every new development bearing on their chances. It will be foolish to assume that Taft will have a walkover and that Bryan is sure of another defeat, for no matter what one's thoughts may be that are fostered by wishes, Taft cannot yet be considered a sure winner nor Bryan as doomed to a third defeat.

"Not much of a Taft enthusiasm, if any at all, has as yet come to the surface. The masses on whom Taft has to depend for a victory have had little voice in his nomination. It has rather been forced upon the party by the strong will, the perfect political skill and the great prestige of the reigning President. The antagonism of the powerful Republican machine politicians has not yet fully disappeared. The wounds which the battle against him before and during the convention has left behind have not yet healed. It seems that many old-time leaders are sulking in their tents, as was the case in the first stage of the Garfield campaign in 1880, when Grant, Conkling, Logan, Cameron and other leaders remained cool and indifferent for quite a while. All this may and probably will be overcome soon; but the bitter opposition of the laboring masses, who consider Taft as the father of the injunction measure, which they hate so much, must be taken into account; also the possible large desertion of the party by the colored people, notwithstanding that what they are and what they have they owe to the Republican party; further, the probability that thousands who have lost much or their all by the panic and the subsequent business depression blame the administration for their misfortune and are liable not to vote for the candidate of the administration; and, finally, the prevailing political superstition that times of distress have always been disastrous to the ruling party. Taft has not by any means grown since his nomination, although it is too early to expect much. There will not be much money, also, at the disposal of the Republican war chest, many old sources of income having been closed by the evolution of events, too fresh in the memory of all. Yet Taft's own personality, his fine character, his splendid attainment, his great fitness for the position and his remarkable record in public life may overcome all this. Party management, party zeal, and the great inspiration there is in the history of the party may work wonders in behalf of his success; but all this the near future will yet have to accomplish.

"On the other hand, Bryan enters the political arena this time stronger than ever before. He went into the convention as the first choice of his party. He is supported by an almost united party. The wing of his party which called itself the safe and sane Democracy and smashed his fortunes in his two former campaigns, has gone to pieces. There is a wave of radicalism passing over the country that favors his policies. The laboring man will be found on his side. In the eyes of many conservative voters Bryan has ceased to be a veritable Socialist. They are inclined to believe that he has become more conservative by years and experience. He is a powerful and fascinating orator and a resourceful campaigner. But his apparently strong armor has also many weak points which the campaign will soon bring to light and to a full understanding by the people. The great gift of oratory has, as history shows, never been able to make a single candidate President, as his own two defeats teach us. The greatest public speakers we ever had, the fascinating Henry C. Clay and the brilliant James G. Blaine, with all their unsurpassed gift of oratory, have not been able to reach the goal of their ambitions—the White House. In weighing the fitness and experience of the candidates, Bryan will be found less qualified than the quiet, judicial

and, in practical statesmanship, the well-trained Taft. On the latter there cannot be fastened the ridiculousness of wrong and dead issues on which Bryan tried to ride into the Presidency. But with all his drawbacks it would be well not to judge Bryan's chances lightly, for it is not always superior fitness or issues that govern nations and parties, but sometimes a people's temper is more powerful than logic. It would be a misrepresentation of the situation as it is now to deny that there are now not more people who believe in the probability of Bryan's success than there have been at any time of his two former candidacies. As things look at present this campaign promises to develop one of the fiercest political struggles which the country has witnessed for a long time."

INDUSTRIAL TRAINING.

It is said on good authority that more than 90 per cent of the pupils who complete the elementary course of instruction in the schools of the country earn a living through some form of manual labor. On this account much attention has recently been given to the question of adjusting instruction in schools to the demand of manual effort upon the future worker. The standard of requirement is twofold. It is not enough to be able to earn a living. That might be all the community itself has a right to demand of the individual; but nations themselves compete so actively nowadays that the individual unit of productive power in the nation should at least measure up to that of its competitors. For that reason the standard of self-support must be supplemented by a standard of comparative industrial efficiency in the training of the worker.

Among all classes a more definite idea of what this requirement involves is being gained from year to year. The conception which organized labor has of effective industry is one thing; that of the professional educator is another. Both may have much in common. President Harvey, of the Stout Training School of Michigan, says the following things are essential in a well-trained workman:

"Habits of close observation; a high ideal as to what constitutes honesty in workmanship; habits of accuracy in work; comprehension of what is good in design as related to use in connection with the work in hand; knowledge of materials best adapted to different forms and types of construction; knowledge of construction processes in the treatment of materials; skill in the care of tools and in their use in industrial processes; knowledge of machine processes and skill in using machinery; skill in free-hand and mechanical drawing."

Probably the best in this rather elaborate outline is comprised in the four things—observation, honesty, accuracy and judgment. The schools do their work best when they concentrate their efforts upon mental and moral mastery of principles, with sufficient practice to illustrate and enforce instruction. The responsible efforts of constructive work come with definite contract in practical life, and the idea should never be lost sight of that instruction is a preliminary to rather than a substitute for the actual experience in the work by which one earns his living.

CONCERNING WOMEN.

The California State Federation of Women's Clubs has endorsed the effort to secure school suffrage for the women of that State.

Miss Minnie A. Tyler has just been re-elected town clerk of South Londonderry, Vermont. Miss Tyler has served twelve successive terms in this office, which was also held by her father and grandfather.

The city of Portland, Maine, now has three women on the school board, two women on the board of overseers, one woman policeman, who is also agent for the State Board of Protection for Children, a woman as assistant city clerk and a woman as city librarian.

Miss Jessie Ackerman has just made her sixth tour around the world. In speaking of Australia, where women have full suffrage, she says: "Since I was last in Australia women have the franchise. In the mining districts I found that the miners' wives took the keenest interest in political questions and were ready to talk politics intelligently, even at the wash-tub."

Is "overlooking the ads." one of your personal shortcomings?

SHOULD HOLD CONVENTION.

The Democratic party of Florida is a party without a platform of principles. The only thing at stake is "office," and the candidates therefore make their own platforms, upon which they go before the people, who are generally controlled by prejudice rather than the issues involved between the candidates. In this connection The Brooksville Argus gives the following good reasons why the Democracy of Florida should hold a State convention to nominate candidates for Presidential electors, delegates to the National convention, and adopt a platform of principles. The Argus says:

"In the recent primaries were the voters who participated bound to men or principles? In the approaching election in casting their ballots for Gilchrist will they be also voting for local option? When voting for Bryan in the general election, men do not vote for him personally, but for what he represents. They voted for him personally at Denver. In the primary men voted for Gilchrist personally, but what does he represent in the general election for men to vote for? We expect to vote for him because he is the nominee of the primary in which we voted for our choice for Governor, but ought we not to have better reasons? We ask these questions simply to show the absurdity of having a party without expressed principles."

JUDGE CARTER FOR SPEAKER.

Judge Syd L. Carter of this city is in constant receipt of letters from different portions of the State urging him to become a candidate for Speaker of the next House of Representatives.

It will be remembered that Judge Carter was a candidate for the position in the last Legislature, but owing to an attack of rheumatism, which temporarily disabled him, just previous to the opening of the session, his name was not presented to the caucus.

Accustomed to presiding over deliberative bodies, coupled with his acknowledged ability, and long legislative experience, point to him as the proper choice.

It would be a graceful thing for the members of the House to reward Judge Carter's long services to the Democratic party by conferring this mark of confidence upon him.

Florida's vote, with the exception of a few postmasters and other Federal officeholders, will be unanimous for Bryan, and Florida will not insist upon a Cabinet place for a Floridian, either.—Times-Union Short Talks.

Correct, brother. Democrats who will be "in the saddle" in Florida after the November election will not ask for Cabinet portfolios for any of the men who were "snowed under" in the May and June primaries, and President Bryan is not likely to select men for such positions who have been repudiated by their party in their own State.

Col. S. J. Hilburn of Palatka, who will be a member of the next Legislature from Putnam county, positively declines to be a candidate for Speaker of the House. He prefers to be on the floor, where he rightfully considers that he can be of more service to the people.

Highly Appreciated.

Mesdames H. H. McCreary and F. D. Warner, of the Cemetery Association, desire to publicly thank Mrs. F. B. Irons for her contribution of the cemetery fund. In a letter to these ladies under date of July 16th Mrs. Irons says:

"Dear Ladies: I am not in any way acquainted with you, as I am comparatively a new-comer, but having read your nice letter I could not but admire your push and perseverance in doing 'what you could.' I thought the enclosed might help a little in your good work. I am somewhat afflicted, so do not go out but very little, and thought I would rather send you the trifle than go to the baseball game, as I am not particularly interested in the game and had attended the one between the 'Fats' and 'Leans.' I have seen your little cemetery but once, and it occurred to me then that it needed some fixing up. I have seen lots of pretty little burial places in my days, but none appeals to me in the South like the Bonaventure cemetery—so peaceful and quiet."

The Farmers' Union of the State is in session in Lake City.

VICE-PRESIDENTIAL NOMINEE

The Savannah News says "the Republicans nominated Congressman Sherman for Vice-President mainly because they thought he would strengthen their ticket in New York, and Democrats, there are reasons for thinking, nominated John Worth Kern of Indiana for the same position with the expectation that he would help them carry that State. Mr. Kern is about 59 years of age and is a popular man in his State. He is an Indianapolis lawyer and has been in politics a good deal since he cast his ballot. He has been supreme court reporter, city solicitor, State Senator and was defeated for Governor in 1904. He also received a complimentary vote of his party United States Senator in 1905. If a Democrat can carry Indiana he can carry that State. It is evident that it is finally concluded that there was better chance of carrying Indiana. Mr. Bryan could have a running mate from any State he desired, and does less he favored Mr. Kern.

"It is evident that it is Mr. Bryan's purpose to make the Middle West a battle ground. He believes he can be elected without New York, and the election of an Indiana man for the second place indicates that he feels that of carrying enough of the Western States, together with the South, to give him the victory. He realizes that he hasn't much real to expect success in the East, hence there is no use to waste time on that section. If Mr. Kern is a candidate he will draw enough votes from him in New York to make it impossible for him to carry that State, and the sentiment in New Jersey and Connecticut, the other doubtful Eastern States, is favorable to him. He has acted wisely therefore in deciding to put his full strength in the West."

The Pensacola Journal says "it was a side play enacted at Denver that was not on the bills. It seemed that the W. R. Thomas Marble Company of Denver has suffered losses by a strike and boycott, while Samuel Gompers, John Mitchell, John B. Lennon, Frank Morrison, and some others, all leading officers of the American Federation of Labor were holding a conference on matters last Friday, the sheriff sent them with papers to appear as defendants in a suit brought by the marble company for \$60,000 damages. Officers of the Colorado State Federation of Labor and the Denver Building Council are co-defendants and trial has been set for August 4."

CHERRY SINK TAKES THE LEAD FOR WEST

In Future Have Three Teachers Instead of One.

TWO FIRST-GRADE CERTIFICATES

Advanced More Than All Other County Schools and Building Had Be Remodeled to Accommodate Attendance.

Cherry Sink school, located near the west end of the county, is now the leading one in attendance and importance in the western section of the county.

It has only been a short while when the teacher was all that was needed to instruct the pupils from that section, but the advancement has been something phenomenal.

Two teachers, each holding first-grade certificates, have already been appointed, and the third one has been ordered for the school for the coming season.

The school board has also ordered another room be cut off in the two-story building they now occupy, which will give each teacher separate apartments.

There is probably not another school to be found that has jumped ahead as this one has, coming up to the notch in just a little over a year. It shows that the people not only have in patronizing the school, but the population of that district is increasing at a rapid rate.

LOSES VALUABLE HORSE.

Oliver Has Horse Killed by Live Electric Wire.

From Sunday's Daily Sun:

A valuable horse belonging to the stables of A. B. Oliver was killed Saturday by a live electric wire which was blown down during the heavy rain storm. The accident occurred on West McCormick street.

The driver, Major Parish, had received a call from Mrs. Whidden to take a passenger to the train, when the accident happened by the negro jumping on the wire which was in front of her residence.

Although she ran out and warned the driver, he did not understand her until both horses had been killed to the ground, and in his attempt to pull them off the wire was himself badly shocked.

He succeeded in releasing one of the animals, but the handsome gray was soon electrocuted, and to the bystanders it looked as if the animal was on fire for several minutes, so that was the current.

The Gainesville National Bank.

In this issue of The Sun appears a condensed statement of the condition of the Gainesville National Bank, the youngest financial institution in the county, to which the attention of our readers is directed. It shows a gain in individual and bank deposits over the report of May 14th, two months ago, of \$19,187.47. The bank paid a dividend of 5 per cent on the 30th of June, and now has a surplus of \$1,000. The extremely large amount of business given this bank more than one year reflects a great credit on the officers and directors of the bank.

GAINESVILLE HAVEN SANATORIUM ASS'N

Dr. C. F. Marsh, Associated with Others, Assumes Charge.

MRS. SUSAN BRADLEY RETAINED

Place Thoroughly Overhauled and Renovated—Walls Being Kalsomined a Neat White, and Everything Arranged in a Sanitary Manner.

The National Odd Fellows' Home and Sanitarium has been leased by Dr. C. F. Marsh and others, and will hereafter be known as the Gainesville Haven Sanatorium Association, with Dr. Marsh in charge.

The new association simply takes up the lease of the old hospital association, and in the future the place will be run as a private institution, and not upon the charity of the city, as in the past.

Just now the place is being thoroughly overhauled and renovated, which work is being rushed as fast as possible, but notwithstanding this, the Sanatorium is ready to receive patients at the present time.

The co-operation of the citizens is asked to make the institution a permanent fixture, and the Doctor assures all that it will be run in a strictly first-class and up-to-date manner.

Mrs. Susan Bradley will remain at the Sanatorium in the capacity of head nurse, and will give all patients the same watchful care that she has exercised in the past, which has won for her an enviable reputation among the citizens of this city.

Later the institution will supply nurses for outside patients, and will give all those that enter the most painstaking care in every regard.

NEWS OF CITY AND COUNTY CONDENSED

From Sunday's Daily Sun:

M. M. Holt, the sawmill man of Jonesville, was among the visitors to Gainesville Saturday. He will start up his mill again on Monday and hopes to run regularly from now on.

Sam Pardue, an old Gainesville boy, but who is now running between Jacksonville and Chattanooga as baggage-man, is in the city on a visit to his sister, Mrs. N. Wells of North Gainesville.

D. Hicks, the veteran wagon-maker of Waldo, was among the visitors to the city Saturday. This is his first visit here in several months and his numerous friends were glad to meet him.

Miss Rosa Mae Bailey of Gainesville, Fla., is making a pleasant visit to her grandmother, Mrs. M. J. Ives, and her aunts, Mrs. Emma L. Goodwyn and Mrs. E. J. E. McLaurin, of this city.—Jacksonville Metropolis, 18th.

Mrs. Mamie Clyatt of Clyatt's station was among the shoppers to the city yesterday. She holds the responsible position as agent for both the express company and Jacksonville & Tampa Railway Co. at that place.

C. A. Harrod, who was for many years a resident of this city but who is now located in Ocala, is here on a visit to relatives and friends. His wife and children preceded him a few days and are visiting Mrs. Sledge and other relatives.

Mr. and Mrs. S. D. McDonald and children of Rocky Point, accompanied by Mrs. L. R. Wimberly and daughters, Misses Annie, Jessie and Ethel, left yesterday for Seabreeze, where they will spend several days visiting that popular resort.

The ladies of Gainesville will tender a reception to the faculty and students of the Summer Normal on Tuesday evening from 8 to 10 at the Elks' Home. A general invitation is extended to the ladies and gentlemen of the city to be present.

A. B. Chitty of Jacksonville passed through the city yesterday en route home from a visit of several days to his parents at Micanopy. Mr. Chitty is interested in the wholesale business in the State's metropolis and reports a fair trade from over the State.

The barn of N. Wells of North Gainesville was struck by lightning Saturday during the storm, and one corner of the building was completely demolished. A fine horse belonging to Mr. Wells was in a stall within a few feet of the accident, but strange to say the animal escaped the slightest injury.

LIBERTY STREET IS THE DIVIDING LINE

If You Live South of This Line You Will Have to Re-Register.

BOOKS WILL OPEN ON AUGUST 1

Supervisor McGrew Will Keep His Office Open Three Days in Each Week for You to Register for November Election—Don't Neglect It.

In order to participate in the general election in November all parties residing on the south side of Liberty street will be compelled to register for this purpose.

To be more explicit, the new district which is known now as No. 25 will be bounded on the west by same line dividing sections 19 and 20, on the north by the half-mile section line running due east and west through sections 1, 2, 3, 4, 5 and 6, township 10, range 20; on the east by range line between ranges 20 and 21; on the south by township line running between and dividing townships 10 and 11.

Supervisor McGrew will keep his office open for three days each week from August 1st to October 10th to accommodate all those who were formerly in district No. 7, to re-register, which will qualify them for the general election in November.

The order creating this new district has now become a law, and unless the citizens in the boundaries mentioned promptly qualify by registering many will be deprived of the privilege of casting their ballots at the coming election.

WILCOX NEWS.

Wilcox, July 18.—Our section was visited yesterday by a hard rain and thunder storm. Perhaps this will cool the weather some, which has been awful warm.

The mother, sister and brother of our efficient agent, R. L. Davis, have returned to their home at Hawthorn, after spending two weeks pleasantly with friends at this place.

Quite a crowd turned out to see the wild animals and also the minstrel of Capt. Moore's show, which was here Tuesday and Tuesday night. A number were present from Old Town.

The Wilcox Turpentine Co., which has been closed down for a short while, has started up again, and is running day and night.

Rev. W. J. Martin filled his regular appointment here last Sunday.

Guy Trammell, a prominent merchant of this place, made a flying business trip to Eugene last Sunday.

E. S. Gaulden, an extensive naval stores operator of Eugene, Lafayette county, is here on business.

Born to Mr. and Mrs. T. W. Colson, on July 11th, a fine boy. Mother and son are doing well.

MRS. LOIS TUCKER HAS FAITH IN CITY

Will Erect Five New Stores of Pressed Brick with Plate Glass Front.

COR. UNION AND PLEASANT STS.

Two of Buildings Will Be One Hundred Feet Deep, Three Sixty-Five Feet Deep—Contract Closed and Work to Commence Soon.

Contractor S. H. Dempsey has closed the contract with Mrs. Lois Tucker for the erection of the five brick stores spoken of in The Sun of a few days since.

The buildings will be constructed of Georgia pressed brick and artificial stone, with plate glass fronts, making them neat as well as serviceable.

Two of the buildings will be one hundred feet in length, three will be sixty-five feet long, and in all they will be large and roomy for proposed tenants.

These buildings, which will face Union street, will no doubt find ready tenants, as "Wall" street is already noted as a busy one and the merchants along this thoroughfare always get their share of the trade of the town, as well as the greater proportion of the country business.

This enterprise on the part of Mrs. Tucker is commendable, in view of present conditions, and it shows that she has faith in the upbuilding of the city, which has advanced at a phenomenal rate for the past four years.

Severe Rain Storm.

A severe rain and wind storm visited this section yesterday and made it very disagreeable to the pedestrians who were compelled to get about the city. The rain lasted for over four hours, while the wind was severe but only of short duration. The streets in various sections of the city resembled young branches, and the rainfall was several inches.

The finest bell peppers ever seen in Gainesville were left at this office yesterday. They were grown by P. M. Oliver in flower pots in the window of his room over Fagan's market, and averaged three inches in diameter, ten inches in circumference and four and one-half inches in length. Mr. Oliver is very proud of his "crop," as he is passionately fond of green peppers.

MICANOPY WANTS A WATERWORKS

And Electric Light Plant—Liberal Franchise Would Be Granted.

HAS ABOUT EVERYTHING ELSE

Needed, Except More People—People Who Once Locate There Always Remain—25 Miles of Hard Roads Afford Fine Drives—News Notes.

Micanopy, July 16.—J. W. English of Flevellen station is in town this morning.

W. S. Jackson of Lake View was in town today.

W. W. Geiger has torn down the old East Florida Seminary building and on the lot will build a modern home. We are glad to have Mr. Geiger move into our midst.

The Williston baseball team played the Evinston team here yesterday. The game resulted in a victory for Evinston by the score of 20 to 4. There was quite a crowd present.

The Carolina Hotel is installing waterworks. W. B. Turner is doing the work.

Mrs. J. A. Simonton returned to Manistee, Ala., yesterday, after having spent a few days here. Mrs. Simonton owns valuable property in and around Micanopy.

Micanopy needs an ice factory, water works and electric light plants. Now is the time for some live person to step in and get the franchise. The town would be liberal if the right parties should apply. Who will be first?

Sunday being the 21st birthday of J. E. Thrasher, Jr., his father presented him with a nice mare, bridle and saddle. J. E. can now take the short cut to Hawthorn.

Miss Lydia Owens of Tampa is visiting Miss Ella Johnson for a few weeks.

Mrs. Wadsworth returned home to Madison yesterday, after having spent several days visiting her mother, Mrs. W. A. Carlton.

The S. J. Thomas Co. of Gainesville are installing the water works plant for J. J. Barr.

Miss Lottie Lee of Jacksonville is visiting Miss Ruby Thrasher.

Miss Bessie Slappey of Georgia is visiting her aunt, Mrs. J. H. Prator, for a few days.

Hilleary & Ford will soon have their moss factory and grist mill in operation. We are glad to see both of these industries located here.

The sawmills of the Melton Lumber Co. and W. B. Bobbitt are both running on full time. They give employment to a good many hands. The Melton Lumber Co. own two engines and several cars. They haul their logs from below Fairfield and have built several miles of road beyond the terminus of the T. & J. railroad. The plant is one of the very best in the State.

Micanopy has the Southern Bell telephone and telegraph service, both local and long distance; the East

Florida Telephone Co.; eight stores; four hotels; two livery stables, two sawmills, a crate factory, a moss factory, a grist mill, a bank, three physicians, a drug store, an undertaking establishment, two beef markets, a fine brick school building, a turpentine still, and various other things too numerous to mention. Still we need more people. We have good lands. We need more up-to-date farmers. The orange industry used to be one of the main sources of revenue to our town and there are several nice groves in and around here now. The population in 1890 was about 600, the same in 1900, and is about the same now, which shows how well the people who live here like the place. If others would come we believe we could hold them also. We have about 25 miles of hard road around here, which affords fine driving. Nice lakes with abundant fish, fields with abundant blackberries. In fact, we have most everything common to the needs of man, from a razorback to a four-horse automobile. We invite everybody to come and see for themselves.

Capt. J. W. Carter is visiting his old home in Owensboro, Ky.

Our genial friend, H. C. Crawford, is out in Washington. We hope he will come back.

Mrs. J. C. Mathers is spending the summer in LaGrange, Ga.

Norman McCredie has gone to Bamberg, S. C. It is "Owen" to circumstances how long he will remain.

NEWBERRY NOTES.

Interesting Batch of Personal Items From That Thriving Town.

Newberry, July 15.—Dr. Thos. McLeod and little daughter, Margaret, visited White Springs last Wednesday, returning Friday.

Miss Annie Duke, one of Trenton's popular young ladies, passed through here Wednesday en route to Plant City, where she will visit friends for a few weeks.

Mr. Pat Hubbard of Hernando was here on business Wednesday.

We are sorry to report Mrs. E. A. Groff on the sick list this week. Her numerous friends wish her a speedy recovery.

Misses Claudia Miller and Annie Snowden of Orlando are spending a few weeks here, guests of the former's sister, Mrs. Dr. Getzen.

Mr. and Mrs. T. J. Swindal and little daughter, Ivey, spent last week in Jasper, visiting relatives.

Miss Ella Louise Smith left Tuesday for Gainesville, where she will spend the week visiting friends and relatives.

Mrs. W. H. Tucker and Mrs. Carter visited Trenton Monday, returning Wednesday.

W. G. Chapman left last week for Hot Springs, Ark., where he will spend a month recuperating.

Mrs. Hamilton and little son, accompanied by Miss Hamilton, all from Georgia, are here, guests of Mrs. C. D. May.

Miss Ella Smith is spending the week at Coleman, the guest of her aunt, Mrs. W. H. Smith.

Miss Edna Johns of White Springs is spending a few weeks here, the guest of Mrs. Densler and Mrs. Kenard.

Miss Ola Ruff, one of Ft. White's charming young ladies, is here, the guest of her brother, Dr. J. F. Ruff.

Mrs. J. N. Partin and daughters, Rena and Johnnie Lee, returned Saturday from Live Oak, where they spent a week visiting relatives and friends.

Miss Ruth Peacock is spending a few weeks at Mayo, visiting relatives. Cecil, the interesting little son of Mr. and Mrs. A. C. Robinson, entertained his numerous friends at a birthday party Monday afternoon.

Those present were Bessie Roland, Margaret McLeod, Leo Densler, Jewel Smith, Ivey Swindal, Peyton Fortson, Jr., Frank and Nelson White, Thomas Roland, Rouse and Karl May, John Arthur Reid and Spencer Ruff. It is useless to add they spent a very pleasant afternoon and wished Master Cecil many happy returns of the day.

Horse-back riding among the ladies is getting to be "all the go" here. Almost every afternoon you may see a crowd leave for the ever popular place, the "peach farm."

S.S.S. DRIVES OUT BLOOD HUMORS

The skin is not simply an outer covering of the body, but through its thousands of pores and glands it performs the great and necessary work of regulating our temperatures, and also assists in disposing of the refuse and waste matters of the system by the constant evaporation that goes on through these little tubes. To perform these duties the tissues and fibres which connect and surround the pores and glands must be continually nourished by pure blood. When from any cause the circulation becomes infected with impurities and humors, it loses its strengthening powers and begins to disease and irritate the delicate tissues, and produces Eczema, Acne, Tetters, or some other itching, disfiguring skin trouble. S. S. S. cures skin diseases of every kind by going down into the circulation and neutralizing and removing the impurities and humors. It changes the quality of the blood from an acrid, fiery fluid to a cooling, health-producing stream, which, instead of irritating and inflaming the skin, cures and nourishes it by its soothing, healthful qualities. Salves, washes, lotions, etc., may be used for any temporary comfort or cleanliness they afford, but skin diseases cannot be cured until S. S. S. has purified the blood. Book on Skin Diseases and any medical advice sent free.

MINSTREL BENEFIT FOR THE BAND BOYS

High-Class Entertainment to Be Given by Local Talent.

TO HAVE CHORUS OF 40 VOICES

Some of the Finest Talent in the City Will Participate in This Minstrel, Which Will Excel Anything Ever Introduced in Amateur Line Here.

Gainesville is to be treated in the very near future to an old time minstrel for the benefit of the Gainesville Brass Band.

A business meeting will be called within the next few days and the boys will be assigned their respective parts, when they will get down to practice regularly.

J. F. Burnett, who is getting the aggregation together, promises the amusement-loving public something rich for their money, and assures them that it will be one of the best amateur productions ever put on the local stage.

The chorus will consist of some forty voices, and all songs will have an accompaniment with a full brass orchestra; besides, the jokes will all be of a local nature, which will give the audience a first-class entertainment.

There is no organization in the city that needs encouragement more than the band, and the getting up of this benefit performance is commendable on the young men of the city.

The band is now practicing regularly, and since its last appearance has even made greater improvement than most people had supposed. This benefit for them will prove that the people of the city appreciate their efforts, for they will give them a full house.

Over Thirty-Five Years.

In 1872 there was a great deal of diarrhoea, dysentery and cholera infantum. It was at this time that Chamberlain's Colic, Cholera and Diarrhoea Remedy was first brought into use. It proved more successful than any other remedy or treatment, and has for thirty-five years maintained that record. From a small beginning its sale and use has extended to every part of the United States and to many foreign countries. Nine druggists out of ten will recommend it when their opinion is asked, although they have other medicines that pay them a greater profit. It can always be depended upon, even in the most severe and dangerous cases. For sale by all druggists.

Notice.

The Alachua county division of the F. E. and C. U. of A. will meet on Thursday, 23rd inst., at Perseverance school house, about two miles west of Alachua.

All Locals are requested to send in full delegations, as this will be a very important meeting.

Help for Those Who Have Stomach Trouble.

After doctoring for about twelve years for a bad stomach trouble, and spending nearly five hundred dollars for medicine and doctors' fees, I purchased my wife one box of Chamberlain's Stomach and Liver Tablets, which did her so much good that she continued to use them and they have done her more good than all of the medicine I bought before.—Samuel Boyer, Potosi, Iowa. This medicine is for sale by all druggists. Samples free.

WALDO NOTES.

Waldo, July 16.—Long-looked-for rains have come, and potato vines are being planted more extensively than ever, as the sweet potato is now a money crop.

Prof. M. M. Bryant, a teacher in the Jasper Normal school, is to be the principal of the Waldo High School for the next year.

Contractor Boothby of Cedar Key has the construction of the house of Mr. J. L. George, material for which is on the ground.

Mrs. R. G. Middleton and daughters, Misses Stella and Lucile, of Norfolk, Va., are visiting Mrs. Middleton's mother, Mrs. Ambrose; George Ambrose and John Ambrose of Tampa and Gainesville, respectively, were also at home for a few days.

Miss Kate Mattair of Thomasville, Ga., is visiting friends here, her former place of residence.

Ernest Weeks is touring in the North. The Waldo News has heard from him in New York.

Town Marshal Joel Weeks is on a visit to his brother, James Weeks, in Savannah.

Miss Lula Hack of Petersburg, Va., is visiting her cousin, Mrs. A. W. Redgrave.

Conductor A. W. Boring has renovated and newly furnished his residence recently purchased of T. M. Cauthen, and will go to housekeeping in a few days. This is one of the prettiest homes in town.

Miss Emma Entenza is in Valdosta under training to be a nurse, as is also Miss Pearl Cone.

Mr. A. Jolly of Orange Heights, who has been ill at his son's, Dr. Andrew Jolly, for some weeks, returned to his home Sunday.

The mercantile firm of W. A. McLenna & Co. has been dissolved, and becomes now W. D. Finlayson & Co.

Miss Alice Strickland has returned from a visit to the family of Hon. J. A. Rosborough at Windsor.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of Swamp-Root, by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

MRS. C. C. PEDRICK IS BADLY INJURED

Accident Occurred in Columbia, When a Freight Train Smashed Car.

COMpletely DEMOLISHED

Fortunately Only Few Passengers Boarded Car and All Escaped Injury Except Mrs. Pedrick, Who Was Injured by Jumping.

Friday's Daily Sun: After a pleasant outing for several days, and while on her return home this city, Mrs. C. C. Pedrick was injured in a wreck at Columbia, S. C., Wednesday.

While in company with her two children, Winifred and Douglass, were passing the city from one depot to another when the accident occurred, which came near resulting seriously. Fortunately the approach of danger was discovered just in time to save the occupants of the car. A freight car heavily loaded was coming at a rate of speed and crashed into the car, completely demolishing it.

Mrs. Pedrick, in jumping, sustained severe bruise on the head and also a wound on the hip, which rendered her unconscious for more than two hours.

Medical aid was quickly summoned and she was placed on board a sleeper and not removed until her arrival in Gainesville Wednesday, being nursed during the trip by Mrs. A. G. Colman.

The children were unhurt, as well as the remaining occupants of the car, due to the way in which they jumped from the moving car, which was running at a fair rate of speed.

Mrs. Pedrick arrived home Thursday over the Seaboard, and although painfully injured, she is resting and her friends trust that she will soon entirely recover.

MORTON THOMAS NOT INTERESTED

Van Allen Leases the White House from Him.

Friday's Daily Sun:

After Sun: As there seems to be a depression among some of the people of Gainesville that the hotel business of the White House belongs to Morton Thomas, and that I am acting as manager, and as your article of yesterday might be understood that I wish to correct any such impression. Major Thomas leases his property to me the same as Mr. Van Allen leases his hotel property. I pay him so much per year, and have no share in the business, nor does he share the profits. He simply gets his share of the same as he does from his other property.

These are the facts and any statements to the contrary are not correct. I wish to add that the success of the White House is as much due to Van Allen as to myself. We consult and work together, and our personal overlooking of the kitchen, dining-room and the hotel in general has made us the reputation we have for neatness, cleanliness, and service.

I thank the people of Gainesville for the public for their patronage, and with the new building and improvements will be able to serve them better than ever before.

JAMES VAN ALLEN.

Conger Appoints Lusk.

Gainesville, Ala., July 17.—Governor B. B. Conger has appointed John Lusk, of Marshall county, a member of the state railroad commission, in the place of the late Major J. J. Lusk. Colonel Lusk is the author of many of the railroad laws that have been held up by the courts, and was a leader in the reform and legislation in the legis-

lature during the summer session. Irregularities are often caused by excessive use of the kidneys or being overheated. Attend to the kidneys at once by using Doan's Kidney Cure. J. W. McCollum & Co.

For calling cards.

RHEUMATIC FOLKS

Are You Sure Your Kidneys Are Well?

Many rheumatic attacks are due to uric acid in the blood. But the duty of the kidneys is to remove all uric acid from the blood. Its presence there shows the kidneys are inactive.

Don't dally with "uric acid solvents." You might go on till doomsday with them, but until you cure the kidneys you will never get well. Doan's Kidney Pills not only remove uric acid, but cure the kidneys and then all danger from uric acid is ended. Here is Gainesville testimony to prove it:

Benj. Rush, living at 220 W. Union street, Gainesville, Fla., says: "I had suffered from kidney trouble, and sciatic rheumatism for years. At times I was in such a miserable condition that I could not get out of bed. The kidney secretions acted very irregular, at times being too profuse while again scanty. I spent a great deal of money for different remedies, but did not find any relief until I began using Doan's Kidney Pills procured at J. S. Bodiford & Co's. They went at once to the seat of my troubles and I steadily grew better. I am almost entirely free from rheumatism and the action of the kidney secretions is normal. I attribute this great change in my condition solely to the use of Doan's Kidney Pills.

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

NORMAL SCHOOL NOTES.

Services of Teachers Attending Are Greatly in Demand.

From Saturday's Daily Sun:

Prof. W. A. Getch has been elected principal of the Montbrook school.

The trustees of the Welborn High School are trying to secure Prof. J. W. Sanders, but may fail. Prof. Sanders has been offered the position of first assistant in the South Florida Normal Institute for the next term.

One of the strongest lady teachers attending the Normal is Miss Maama Hill of Dade City. She is a fine scholar, a fine disciplinarian and an excellent instructor. Her services are in demand.

Every mail brings offers of positions to the teachers attending the Normal.

As a help to a better position it pays to attend the Normal.

The many Gainesville friends of Miss Eddie Reddick will be pleased to learn that she has been given a good position in the schools of Marion county. Miss Reddick, for the past two terms, has been the primary teacher in the Hawthorn school.

Miss Trummie Taylor has been offered a position in the Floral City school.

A number of prominent visitors were present at the chapel exercises of the Normal yesterday morning.

Miss Pemberton returned to her home in Oxford Wednesday.

The literary exercises of the Normal last night were of unusual interest. The Normal Gazette was a "warm number."

Yesterday morning immediately following the chapel exercises of the Normal, a meeting of the Agricultural Society was called and addresses made by the president, W. H. Cassells, Profs. Sledd, Rolfs, Foster and Capt. Lynch. Capt. Lynch stated that he would establish two experimental schools, one a rural graded, at Trenton; the other, a junior high. He did not say where he would locate the junior high school. The society adjourned to meet with the State Educational Association during the holidays.

Miss Hattie Hawthorn spent the forenoon at the Normal, and left for Hawthorn at 1:50 via the Coast Line. Her Normal friends were delighted to greet her.

Prof. G. H. Tompkins of the Normal leaves today for Linden, to rest up a week before entering the South Florida Normal at Dade City.

Prof. P. W. Carr has placed a number of his Normal students this week.

Dr. Yocum is untiring in his efforts to promote every interest of the Normal.

Was in Poor Health for Years.

Ira W. Kelley of Mansfield, Pa., writes: "I was in poor health for two years, suffering from kidney and bladder trouble, and spent considerable money consulting physicians without obtaining any marked benefit, but was cured by Foley's Kidney Cure, and I desire to add my testimony that it may be the cause of restoring the health of others." Refuse imitations. J. W. McCollum & Co.

Jesse Hunter, sheriff of Lake county, has resigned, and the Governor has appointed B. A. Cassady to the position.

Shipping cattle to Cuba is still a profitable South Florida industry. One Charlotte Harbor firm recently received an order for 500 head.

The Dade county commissioners offer a reward of \$100 for the first conviction for violating the game law and \$50 each for the next ten convictions. Moreover, they have fixed the salary of the game warden at \$40 per month.

Mrs. Ralph Saxe, widow of the man who committed suicide in the apartment house in The Tribune building in Tampa last Sunday, died the day afterwards, the result of taking chloroform with suicidal intent.

George Washington, the negro condemned to die July 31 in this city, continues to call for chicken. If he can get all the chicken he can eat, he says he will be perfectly content to mount the gallows when his time comes.—Tampa Evening News.

Adjutant-General Foster has refused to accept the signature of the Tampa militia officers who sought to retire from the Second Regiment, Florida State Troops, on the ground that the time for their withdrawal is inopportune and would be detrimental to the welfare of the service.

At a meeting of the city council of Tampa recently the preliminary work of providing for the construction of a new city stockade was accomplished, and Tampa will soon have a city prison which will not be subjected to the criticisms which are now heaped upon the present inadequate and ill-adapted stockade.

Snell Hendry at City Point last Wednesday captured a manatee measuring over 10 feet and weighing about 1,500 pounds. He has him now in a pool 10x11 feet and will keep him for exhibition. It required ten men and a mule to get him to the pool from the river, having to put him on a board platform and drag him by mule power.—Cocoa News.

A colored boy, Isaac Budge, was accidentally killed northwest of Starke by falling from a wagon. He was standing up in the wagon with another boy after a load of fodder and seeing a cloud coming up, threatening rain, they started the mules in a trot, when the boy fell out, the hind wheel passing over the body, injuring him so that death resulted the next day.

As an expert witness in the United States court last week Hon. George W. Allen testified that to his positive knowledge the work on the railroad between Key West and Knight's Key would begin on a large scale by November 1, 1908, and would be completed within fifteen months, and that he was positive that work on a small scale would begin immediately. The reason for delaying the operations along the keys, Mr. Allen said, was due to the mosquitoes and the hurricane months. Mr. Allen is in a position to know these things, and his statement is encouraging.

A singular accident caused the death of Mr. McDaniel, of Woodville, Sunday, 12th inst. Mr. McDaniel was visiting a Mr. Shirris, at the latter's home near the St. Mark's river, and on Sunday, accompanied by his host, went for a walk through the fields. As the two men passed under a decayed tree it fell and struck Mr. McDaniel on the back of the head and neck. His skull was fractured and his neck broken. There was no wind and no warning sound; the scarcely felt vibration of the men's footsteps was all that was needed to topple over the tree, so far had its decay progressed.

Dr. E. A. Bessy, superintendent of the United States Tropical Gardens and Laboratory at Miami, has an African baobab tree in bloom at his residence. It is believed that this is the only tree of its kind blooming in the State. The tree in its native home is one of the largest trees grown, often attaining a diameter of thirty to forty feet near the ground. In height it rarely ever grows more than sixty to 100 feet. Mr. J. M. Braxton, the Government engineer at Key West, is making preparations to begin the work of removing the shoals in the main ship channel, located by the United States geodetic surveyors. Several "bends" were found in the channel, and through the efforts of the chamber of commerce a small appropriation to remove the obstructions was secured. Their removal will greatly improve the channel.

One of the best organized and most successful gangs of freight-car robbers and wholesale grocery operators ever to operate in Pensacola, was unearthed by the police Wednesday night, and before the latter ceased work eleven negroes had been landed in jail, one probably fatally wounded by an officer's bullet, while wagon loads of groceries were recovered and hauled to the police station. The gang, which is composed of employees or drivers of wholesale grocery houses, saloons and car breakers, were supplying restaurants and stores with goods stolen from cars and wholesale grocery warehouses.

G. B. Burhans Testifies After Four Years.

G. B. Burhans of Carlisle Center, N. Y., writes: "About four years ago I wrote you stating that I had been entirely cured of a severe kidney trouble by taking less than two bottles of Foley's Kidney Cure. It entirely stopped the brick-dust sediment, and pain and symptoms of kidney disease disappeared. I am glad to say that I have never had a return of any of those symptoms during the four years that have elapsed and I am evidently cured to stay cured, and heartily recommend Foley's Kidney Cure to anyone suffering from kidney or bladder trouble." Train Wreck in Texas.

Midland, Tex., July 17.—An east-bound Texas and Pacific freight train was thrown from the track here Wednesday by running into an open switch that had been thrown by unknown persons. Engineer Brigham Young suffered a broken leg and a Mexican is missing, and is believed to be dead. The engine overturned. Five cars of fruit were piled up. The train was carrying several cars of silver and copper bullion from Mexico to New York.

Starved to Death

Is what could truthfully be said of many children who die. They have worms, poor little things—they don't know it and you don't realize it. If your child is cross, fretful, pesty complexioned and loses weight for no apparent reason, give it White's Cream Vermifuge—you will be surprised at the results and how quickly it picks up. TAFT GIVES UP GOLF.

No More Recreation Until Speech of Acceptance is Finished.

Hot Springs, Va., July 17.—Pressed by the necessity of having his speech of acceptance prepared several days in advance of its delivery at Cincinnati on the 28th instant, William H. Taft Thursday determined to forego his usual recreation and exercise until the end of his task is in sight.

Golf and horseback rides will not figure in his daily routine again until the speech is sufficiently perfected to lift the burden of its preparations from him.

Mr. Taft was in his office early on Thursday and resumed the dictation of the paper to his stenographer. He has gone over the documents he desired to study before dictating his speech, and has the subject thoroughly in hand. He will keep close to his task until it is finished.

Chamberlain's Colic, Cholera and Diarrhoea Remedy Would Have Saved Him \$100.

"In 1902 I had a very severe attack of diarrhoea," says R. N. Farrar of Cat Island, La. For several weeks I was unable to do anything. On March 18, 1907, I had a similar attack, and took Chamberlain's Colic, Cholera and Diarrhoea Remedy, which gave me prompt relief. I consider it one of the best medicines of its kind in the world, and had I used it in 1902 believe it would have saved me a hundred dollar doctor's bill." Sold by all druggists.

The Oldest Treaty.

The oldest text of a real treaty now in existence is that of the convention between Ramesses II., king of Egypt, and the Prince of Kheta, which embraces the articles of a permanent offensive and defensive alliance, with clauses providing for the extradition of emigrants, deserters, criminals and skilled workmen. This treaty was drawn up in the fourteenth century B. C. and is the earliest record that we have of any international transaction.
